

30"X48"X36" HANDHOLE

INTRODUCTION

Aether manhole system is designed for underground distribution systems, especially for fiber optical and electricity industries. Manufactured with innovated composite material, making Aether system an ideal solution of strong, light, flexible, time & cost saving comparing to concrete manhole

ADVANTAGES

- Modular design with knock-down delivery and on-site set up
- Strong but light composite material construction
- Cost saving due to light weight, modular design
- Flexible to drill on wanted size for duct access; Duct entry provided
- Durability and resistance of entire construction up to SCTE-77 Tier22
